

OVERVIEW OF GEOTECHNICAL MONITORING APPLICATIONS OF OPTICAL FIBER SENSORS, EXPERIENCES IN CENTRAL AMERICA

Ing. Luis Guillermo Loria-Salazar, MSc, PhD

General Director, Transportation Infrastructure Program
National Laboratory of Materials and Structural Models, LanammeUCR
University of Costa Rica

COSTA RICA

- Located in Central America.
- 52,000 km² (Texas is 700,000 km², Mexico is 2,000,000 km²).
- 4,000,000 people.
- No army since 1948.
- 2 million of tourists in 2013.
- Biggest INTEL facility in the world
- **2011: The happiest country in the world!!!**

¿What is LanammeUCR?

LanammeUCR is the National Laboratory of Materials and Structural Models of the University of Costa Rica.

We work on:

- Applied research
- Academics
- Technology Transfer
- Technical cooperation

First latin-american laboratory accredited by ISO 17025-2002

→ **80 test accredited**
